Trasparenze marine

Trasparenze marine

Die sechs zarten Pastelltöne interpretieren die Bewegung des leicht gekräuselten Meeres. Bei ihrer Berührung spürt man das leichte Basrelief, das man bemerkt, sobald das Licht die Glasur streift und dabei ihre Bewegung und Tiefe betont.
Die Kombination zwischen dem wässrigen Glanz der Oberfläche und dem Mosaik Ventaglio zaubert einen edlen zeitgenössischen Geschmack herbei.

[it] Le sei delicate tonalità pastello interpretano il movimento del mare lievemente increspato, al tatto si avverte il leggero bassorilievo, che compare quando la luce incide radente sullo smalto esaltandone il movimento e la profondità. La lucentezza acquosa della superficie abbinata al mosaico Ventaglio assicurano note di raffinata contemporaneità.

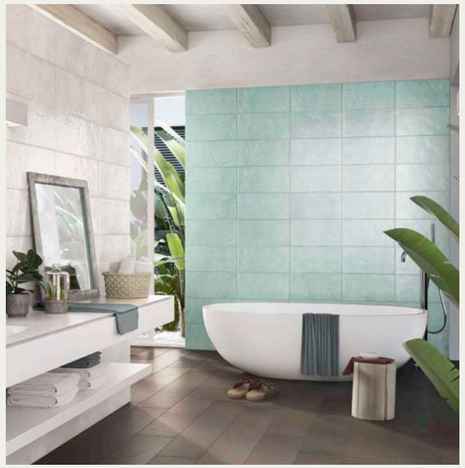
Zuhause bei Ferdinand und Gaia F.

Rotterdam, Holland

Der Arbeitstag dieses jungen Wissenschaftlerpaares findet in eisigen Großraumlabors im Zentrum von Rotterdam statt.
Sie wählten für ihr Heim mitten in der holländischen Altstadt die Kollektion *Trasparenze marine* für ihr großes und helles Bad aus: Eine Wahl, bei der sich Gaia von ihren italienischen Wurzeln leiten ließ und die von Ferdinand, der auch ein Fan des mediterranen Europas ist, mit Begeisterung aufgenommen wurde.

Ferdinand e Gaia F.
Junge Forscher · Giovani ricercatori



[it] La giornata lavorativa di questa giovane coppia di ricercatori si svolge in algidi ambienti open-space nel centro di Rotterdam.
Per la loro residenza nel centro storico della città olandese hanno scelto la collezione *Trasparenze marine* per il bagno grande e luminoso: una scelta ispirata da Gaia in omaggio alle sue origini italiane e recepita con entusiasmo da Ferdinand, anch'egli amante del mare dell'Europa mediterranea.
